

VOGO and the European Handball Federation have signed a new contract for the VOGO ELITE BUNDLE video replay solution to be used by referees in the Men's and Women's EHF EUROs 2024 and 2026

VOGO (ISIN: FR0011532225 - ALVGO) and the European Handball Federation announce that they have signed a new contract giving the EHF the use of a video replay solution for referees for the Men's and Women's EHF EUROs 2024 and 2026, representing a total coverage of 260 matches. This commitment further cements VOGO's new TaaS (technology as a service) business model involving multi-year service contracts.

After the contract announcement with EHF Marketing, the marketing arm of the European Handball Federation, in September 2023 covering all matches in the men's and women's EHF Champions League over five seasons, VOGO has once again been hand-picked for its solutions, this time for the VOGO ELITE BUNDLE which combines VOKKERO ELITE audio and VOGOSPORT ELITE video solutions, for all of the EHF EURO events in 2024 and 2026. The contract includes the Men's EHF EURO 2024 in Germany, the Women's EHF EURO 2024 in Austria, Hungary and Switzerland, the Men's EHF EURO 2026 in Denmark, Sweden and Norway as well as the Women's EHF EURO 2026 (organiser tbc) with 260 matches in total.

A deepening partnership through strong synergies

With VOGO solutions already implemented for the EHF Champions League matches in 2023, the offering is now being extended to include:

- The availability of a VOGO Replay Operator for each match, who will receive upstream training from the EHF on the rules of handball and will assist the field referees in handling and selecting the video footages on VOGOSPORT screens during matches.
- Extensive VOGOSPORT ELITE video replay tools, comprising of a video review booth positioned at the edge of the court with three 27-inch touchscreens. The first is handled by the VOGO Replay Operator, while the second is a monitor for the Video Referee Assistant. The third duplicates the images intended for the referees to facilitate decision-making.
- The set up of goal cameras replicating the goal-line technology used in football combined with mini cameras monitoring the team substitution areas.

Martin Hausleitner, Secretary General of the EHF, said: *"The European Handball Federation is thrilled to start a long-term partnership with VOGO for the biggest European handball stage, Men's and Women's EHF EUROs. The cooperation includes four upcoming EHF EUROs, and we*

are sure that together with VOGO we will develop the competition and bring the video refereeing system to a higher level."

Commenting on this new alliance, Christophe Carniel, Chairman and CEO of VOGO, said: *"The TaaS business model that we have been ramping up since the beginning of 2023 continues to gain momentum. After signing numerous contracts, with the Estonian Football Championship (VAR Light), the LNR (National Rugby League) and the EHF, we have every confidence in the strengths of this model. We have already secured a high level of recurrent revenue until 2026".*

This extended collaboration between VOGO and the EHF is a further illustration of the major role played by the Group in the space of video referee assistance, and across increasingly diverse disciplines.

About VOGO

In the Sports sector, **VOGO** is a leading international player, with its audio and video solutions for fans and professionals alike. For professionals, VOGO offers analysis and decision-making tools (referee assistance, medical diagnostics, coaching). VOGO's disruptive solution for fans transforms the stadium experience by providing multi-camera content on demand for tablets and smartphones, no matter how many people are connected. VOGO also operates in the Industry sector. All of the Group's technologies are patent-protected. VOGO is based in France (Montpellier, Grenoble and Paris) and has two subsidiaries, one in North America and the other in the United Kingdom.

VOGO operates indirectly in other countries through its network composed of around thirty distributors. VOGO has been listed on the Euronext Growth Paris stock market since November 2018 (ISIN code: FR0011532225 – ALVGO).
